

# Streamline your shipping. Expand your profits.

April 2010

UPS Trade Direct®

## **Create efficiencies today for future success.**

From factories and origin points directly to your customers' doors, UPS Trade Direct® manages the entire process, giving you full visibility and control of your shipments along the way.

All of your international freight shipping, customs brokerage, distribution and delivery is streamlined, reducing your supply chain costs, improving speed to market and customer service, all through a single source.

## How Trade Direct works

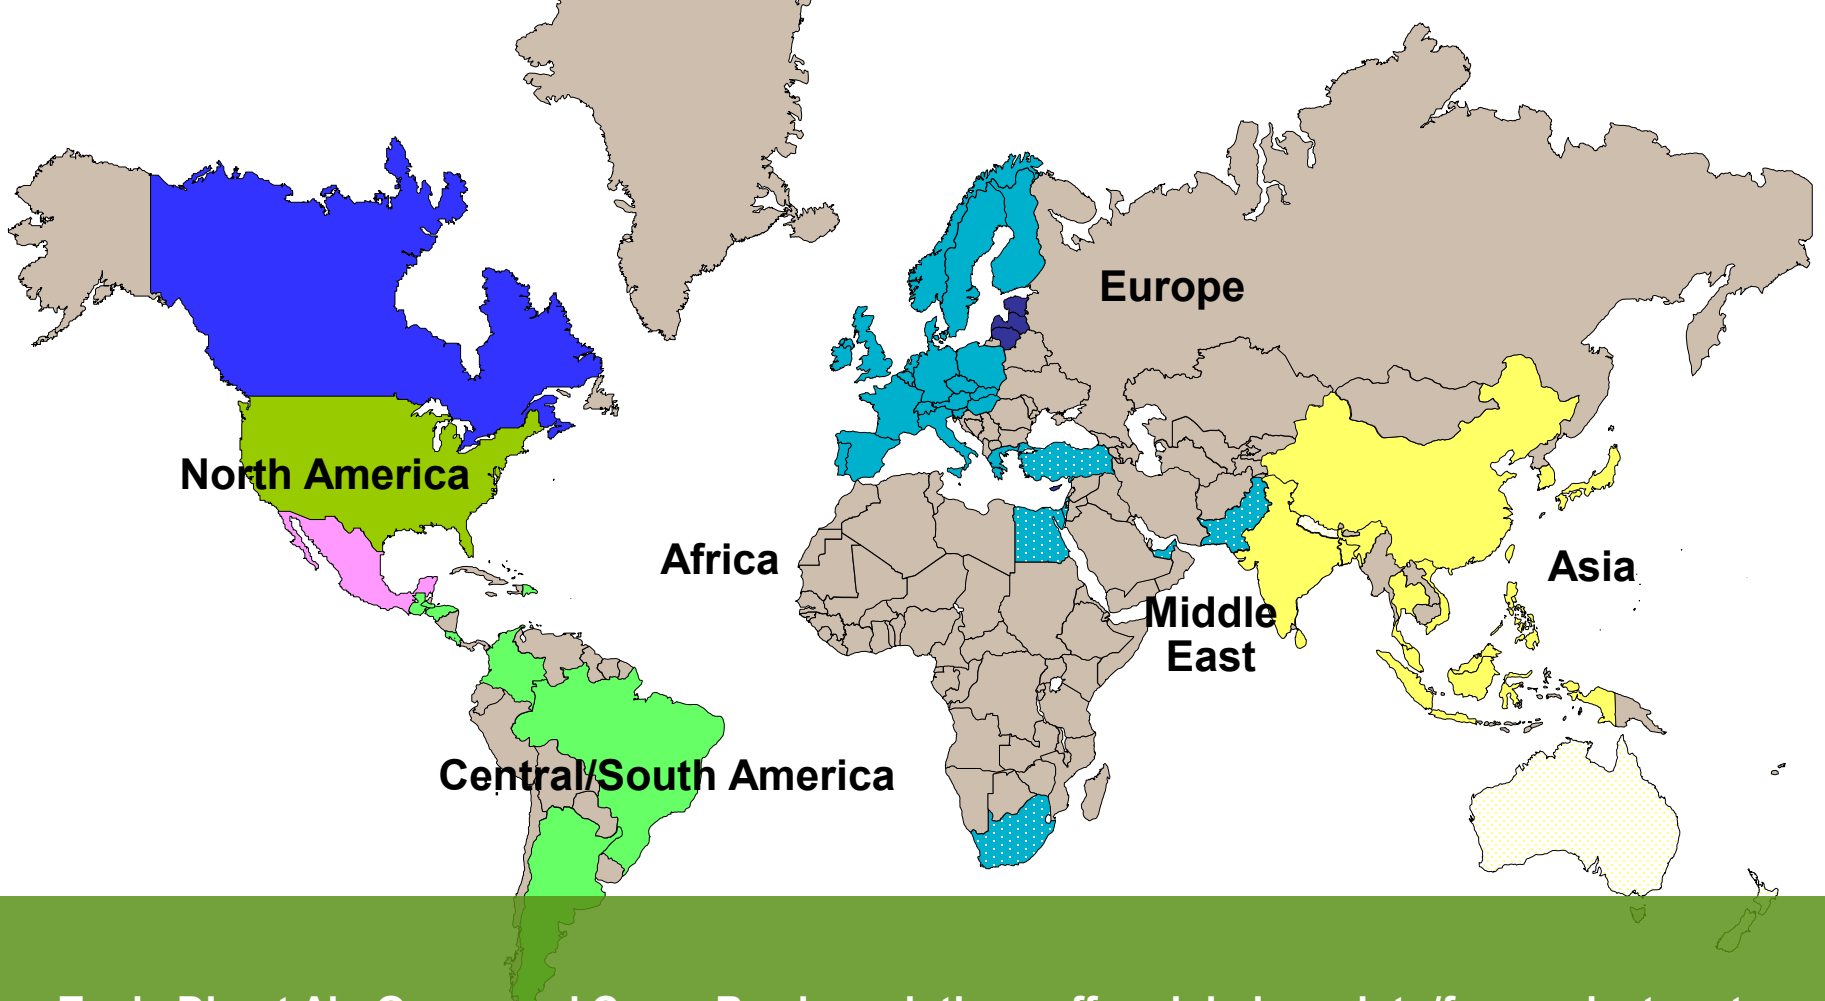

- Your shipments are picked up at the factory or origin point
- Multiple shipments are consolidated into one shipment
- Single shipments clear customs and are deconsolidated
- Deconsolidated shipments are delivered through the UPS package or less-than-truckload (LTL) networks
- Shipments arrive at multiple customer destinations, bypassing distribution centers

## Trade Direct methods to fit your needs

- **UPS Trade Direct Cross Border** — Provides an end-to-end solution of packages and freight shipments across U.S.-Canada and U.S.-Mexico borders
- **UPS Trade Direct Ocean** — For economical movement of shipments in major trade lanes worldwide, with delivery direct to retailers and end consumers. Combines ocean freight and customs clearance with final UPS package, LTL or TL delivery
- **UPS Trade Direct Air** — A direct-to-consumer or retail store solution. Ideal for getting time-sensitive, higher value merchandise to market faster. Combines air freight and customs clearance with final UPS package, LTL or TL delivery.

Trade Direct Air, Ocean and Cross Border solutions offer global reach to/from select ports in Asia, Europe, Central, South and North America

■ Un-served

## How Trade Direct benefits you

- Faster time to market by eliminating the need for multiple carrier shipping and inefficient stops at multiple midpoints or distribution centers
- Overall logistics costs are reduced by eliminating unnecessary labor, handling and equipment costs
- Profit improves as a result of an increase in inventory turns and reduced carrying costs
- End-to-end visibility puts you in control of your shipments every step of the way and provides enhanced customer service
- Single point of contact simplifies management and administrative requirements

# Rely on the experts...UPS Customs Brokerage Services.

Over 80 years of customs brokerage experience

<b>We offer:</b>	<b>So you can:</b>
A global network of customs brokerage services in over 60 countries	Benefit from a customs brokerage network and IT infrastructure from a single source
Expertise as the largest filer of entries in North America	Gain expertise in all commodities and agencies
Value-added processes and compliance support	Access services that reduce cycle times and control costs
